

Hello! If you are receiving this, list my name is Kendeigh Worden, founder of The Grape Grind, where I run a virtual blind tasting club in the US.

Since I can't ship wine overseas, I have this PDF printable list, members can take to a shop and ask for similar bottles to be pulled or ordered in for them, wrapped and numbered in the correct order below (doesn't have to be fancy - brown paper bage and marker will do!).

You can work out payment details (most pay at pickup/some pay over the phone), but since it's a blind tasting, they don't want to know what bottles are in the lineup, so ideally they wouldn't see the wines listed on the invoice or receipt.

As long as they have something that matches in style, it would be okay if the bottle isn't the exact producer on our list. I ask for as close to "classic" as possible and \$20-30usd average retail. If you can order in the same producer (*in parenthesis below*) that would be even better.

Most shops are happy to do this here and I would love if you could do the same!

Our lineup for next month is below.

If ordering bottles in, they will need to be picked up before the first Monday of each month!
